

## PRODUCT DESCRIPTION

BF METALLIC series consists of polyurethane films characterized by a pearlescent finishing with an iridescent effect. The cutting line of all the films is highly visible and the workability of the product is unique; its polyester adhesive carrier allows for fast weeding and easy repositioning of any small details that might have accidentally lifted from the carrier.

The BF METALLIC series is suitable for multilayer applications and is resistant to washing up to 40°C. The colors available allow it to be used for application on sporty and fashion clothing.
