

## PRODUCT DESCRIPTION

“Whether I customize cotton t-shirts, hoodies, or work pants, which heat transfer vinyl can offer ease of use while guaranteeing a long-lasting result?”

We created GIMME5 to answer that question. It applies in just 4 seconds at 140°C/285°F, it offers a wide color selection, is fully opaque even on dark garments, and has an elegant matt finish.

Thanks to its thickness of only 80 microns, GIMME5 is pleasant and soft on any garment and easy to use. This film is made using only the highest quality raw materials, which ensures a long-lasting application. We have tested it to last over 100 wash cycles at 90°C/194°F.
